

● LIVE ON THE CALL

Put a world-class closer in **every rep's ear.**

A real-time AI sales copilot for high-ticket calls. It whispers the exact words your best closer would use — **in under a second, while the prospect is still talking.**

Real estate

High-ticket & coaching

Real-time, on any dialer

Trained on the closers' playbook

WHY IT'S NEEDED

In high-ticket sales, one call is worth **a fortune**. Most reps fumble it.

A single real-estate or coaching close can be worth tens of thousands in commission. The lead cost you real money to get on the phone. And it all hinges on the ten seconds after the prospect pushes back.

Expensive leads, wasted

You paid \$50–\$300 to get this call. One frozen objection and that spend — and the deal — is gone.

One objection decides it

"It's too expensive." "I need to talk to my spouse." "Let me think about it." The rep folds; the close evaporates.

Talent won't transfer

Your best closer's instincts live in their head. New reps can't copy them from a PDF — so results swing wildly by seat.

Coaching comes too late

By the time anyone reviews the recording, the money's gone and the rep's made the same miss 50 more times.

High-ticket sales is won or lost in the moment — exactly where no tool has ever been able to help. Until now.

THE PRODUCT

A closer that rides along on **every call.**

Parley hears both sides of the live call, reads the moment, and hands your rep the exact line to say — in under a second. The prospect never knows. Your close rate does.

- 01 Hears both sides — over any dialer, invisible to the prospect
- 02 Knows the moment — the objection, the stall, the buying signal
- 03 Whispers the close — the exact line, from a world-class playbook

Hear. Understand. Whisper. **In under a second.**

Post-call tools grade the call three days later. Parley closes the whole loop **in real time** — **before the pause ever gets awkward.** No bot on the line, no rip-and-replace.

01 · LISTEN

Hears both sides

Rep + prospect audio, transcribed live over any softphone or dialer.

02 · UNDERSTAND

Reads the moment

Detects the stage and classifies the objection or buying signal the instant it lands.

03 · WHISPER

Hands over the line

The perfect response appears on the overlay. The rep says it in their own voice, and keeps control.

Any dialer / softphone

Invisible to the prospect

Hidden on screen-share

Live in minutes

Three ways to plug in.

However your reps get on the phone, Parley can hear the call. Pick the path that fits — you're live in minutes, with no rip-and-replace on any of them.

OPTION 1 · TODAY

Your existing dialer

Parley listens at the audio layer over the softphone or dialer you already run — Aircall, RingCentral, kvCORE, Kixie. Nothing to change.

OPTION 2 · ROLLING OUT

A Parley phone number

Prefer not to touch your setup? Route calls through a dedicated Parley virtual number and it captures both sides automatically — zero install.

OPTION 3 · ROLLING OUT

Zoom & video calls

Closing over Zoom or Google Meet? Parley listens to the video call and coaches your rep exactly the same way as a phone call.

Phone, virtual number, or video — Parley meets your team where they already sell.

It doesn't think like generic AI. It thinks like the **greatest closers alive.**

Parley's brain is built on the proven frameworks behind the biggest names in high-ticket closing and negotiation. Every rep gets their playbook — the value framing, the tactical empathy, the questions, the close — live, in the moment.

Alex Hormozi

Value & offer framing

Reframe price into return. Stack value until the cost feels obvious.

Chris Voss

Tactical empathy

Labels, calibrated questions, and “no”-oriented negotiation.

Jeremy Miner

NEPQ questioning

Neuro-emotional questions that let the prospect sell themselves.

Grant Cardone

Closing & follow-up

Relentless, structured closing and objection persistence.

Straight Line

Belfort system

Control the tonality and the path from open to close.

YOUR EDGE

On top of the masters, Parley learns **your** best reps' winning lines — so the brain gets sharper with every call your team makes.

Names denote publicly documented sales methodologies used to inform training and prompting; no affiliation or endorsement implied.

A closer only your rep can see.

The overlay floats over your dialer and updates silently as the call moves. It never plays into the audio, so the prospect hears nothing — and it auto-hides on screen-share, so demos and monitoring stay clean.

- Silent & on-screen only — undetectable to the prospect
- Works over Aircall, RingCentral, kvCORE dialer, a browser softphone...
- Call-stage rail so the rep always knows where the call is

Never blank on an objection again.

The instant a prospect pushes back, Parley classifies the objection and delivers the master-level response — before the pause gets awkward.

“It’s too expensive.”

→ Isolate price vs. value, then stack the return until the number feels small. (Hormozi)

“Let me think about it.”

→ Label the hesitation and ask the calibrated question that surfaces the real block. (Voss)

“I need to talk to my spouse.”

→ Validate, then arm them with the answer their partner will ask for. (NEPQ)

LEARNS YOUR TEAM

Every rep taps to log which line landed — so Parley’s rebuttals get sharper for your exact market with every call.

Coach the whole floor. In real time.

You can't sit on every call — and reviewing recordings next week doesn't change today's number. Parley puts the manager in the moment.

Whisper & barge

Drop into any live call, send a nudge only the rep hears, or take the call over to save a slipping deal.

Every call scored

100% of calls graded automatically on opener, discovery, objections, and next step — not a 2% sample.

Ramp reps fast

New closers sound like veterans from day one, and hit their first close weeks sooner.

2 wks

<1s

objection → on-screen line

Illustrative outcomes — confirm against your own pilots.

AFTER EVERY CALL

Every call makes the next one **better.**

The second a call ends, Parley hands the rep a scorecard and a personalized report — what they nailed, what slipped, and the one thing to fix before the next dial. Reps self-coach on every call, instead of waiting for a Friday 1:1.

- A score on every call — opener, discovery, objection handling, next step
- The exact moment that cost the deal, pulled from the transcript
- One concrete fix for next time — from the same master playbook

Call scorecard · #4,182

just now

OVERALL	82/100
Opener	✓ strong
Discovery	✓ 4 questions
Objection handling	⚠ dropped price
Next step	✓ booked

► FIX BEFORE NEXT CALL

On “too expensive,” you defended the price. Next time, isolate value vs. cost first — try the value-stack reframe.

WHO IT'S FOR

Built for high-ticket phone sales.

Anywhere a big commission rides on a live conversation and objections are the whole game.

Real estate ISAs

Seller and buyer calls off kvCORE & FollowUpBoss. Handle “which agent?” and “we’re just looking” — book more appointments.

Coaching & info products

High-ticket offers (\$5k–\$50k). Hormozi-style value framing, live, on every setter and closer call.

Mortgage & finance

Rate and payment objections, compliance-sensitive scripts, fast follow-up — handled in the moment.

Solar & home services

In-home and phone closes with heavy price pushback and spouse objections.

Insurance & financial

Trust-heavy, objection-heavy calls where the right question wins the appointment.

Med-spa & luxury

Premium consults where framing value beats discounting every time.

THE MATH

One saved deal pays for the whole year.

In high-ticket, the value of a single recovered objection dwarfs the cost of the tool. Parley doesn't need to lift close rates much to be the best ROI on the floor.

- Avg. high-ticket commission: **\$8,000**
- Parley: **\$71/rep/mo** = **\$852/yr**
- Recover **one** extra deal a year → **9x payback**. Most reps recover one a *month*.

ONE RECOVERED DEAL

\$8,000

vs. \$852 / rep / year

9x

from one deal

100x+

realistic annual ROI

FITS YOUR STACK

Works with what you already run.

No new phone system. Parley rides your dialer, syncs your CRM, and keeps outbound compliant.

Any dialer

Aircall, RingCentral, kvCORE,
Kixie, browser softphones —
Parley listens at the audio layer.

Your CRM

FollowUpBoss, kvCORE, HubSpot
& more. Lead context in, call
outcome auto-logged out.

Compliant by default

DNC scrub before the dial,
consent capture, calling windows
— TCPA-ready out of the box.

Secure

Encrypted in transit & at rest,
per-tenant isolation, SOC 2 in
progress.

Live in minutes

No rip-and-replace

Per-seat pricing

Free to try

PRICING

Priced so one deal covers the year.

Simple per-seat pricing. Start free, land a pod, expand the floor. Billed annually — save 20% vs. monthly.

STARTER

\$39/rep/mo

For solo closers & small pods.

- ✓ Live overlay + rebuttals
- ✓ Call-stage guidance
- ✓ Works over any dialer
- ✓ Auto call logging

MOST POPULAR

TEAM

\$71/rep/mo

For teams that coach and ramp fast.

- ✓ Everything in Starter
- ✓ Whisper coaching + barge
- ✓ Scoring on 100% of calls
- ✓ CRM sync + manager dashboard

SCALE

Custom

For BPOs & large floors.

- ✓ Everything in Team
- ✓ TCPA / DNC controls + SSO
- ✓ Custom rebuttal training
- ✓ Dedicated CSM + SLA

Per rep / month, billed annually. Free to start — no card. One recovered \$8k deal covers a rep for ~9 years.

Every rep closes like your **best closer**. Live.

The masters' playbook, in your rep's ear, on every high-ticket call.
